Partner with PrivacyEngine

The PrivacyEngine Partner Programme is designed for 1) Technical Partners (who may want to “bolt on” our software solutions and tools into their product offerings) and;

2) Data Privacy & Protection Consultants who wish to use PrivacyEngine to centralize their client’s privacy frameworks to make life a whole lot easier.

What does a Partnership with PrivacyEngine look like?

A free Demo account

System training

Monetary benefits for all introductions

Comprehensive support throughout

We understand that consultants manage a mix of clients with various needs. We want to help you reach your ambitions. PrivacyEngine wants to ensure that you and your clients get the most out of everything PrivacyEngine and our Partnership programme offers.

Who can join?

Technical partners and privacy consultants! These can range from independent consultants just starting their business, to well-established data protection consultancy houses. We will help you devise a strategic growth plan to include PrivacyEngine’s tools as part of your offering, or for the occasional client looking for a data protection solution. We know we will be a great addition to your product offering portfolio.

We pride ourselves in offering a true partnership and we’re always looking at the best ways to support you and your business.

Why become a Partner?

Since 2013, PrivacyEngine has implemented Data Protection programs for hundreds of clients. Providing practical solutions, strategy and advice that go beyond compliance to deliver real business value including preventing data breaches, improving brand values and strengthening business growth.

At PrivacyEngine, we believe that privacy compliance should be straightforward, efficient, and accessible to all organizations. Our story is one of innovation, dedication, and a passion for helping businesses navigate the complex world of privacy regulations.

A real relationship

We work with our Partners closely and offer support whenever it is required. We pride ourselves on building strong relationships whilst giving you and your team the tools you need to confidently and successfully promote PrivacyEngine. We're always looking for opportunities to promote our Partners to our direct customers, too. We also hold monthly webinars and podcasts where we regularly invite our Partners to contribute as guest speakers.

Grow your business & services

Our Partners have told us first-hand that PrivacyEngine is a great tool for adding value to their clients. Your involvement with PrivacyEngine could be as little as a monthly touchpoint to discuss your referrals or new product features. PrivacyEngine supports the needs of both client and partner whilst creating wider opportunities for Partners to get involved and proactively support their clients.

Rewards Scheme

As a Partner, you will receive 20% of the year 1 license fee for clients you refer with no obligatory targets or tie-in periods. We also provide rewards for partners who work with clients on a retainer basis. We plan to host annual Partner awards to celebrate the successes of our Partners in the future.

Extensive support & tools

You will be assigned a Partner Account Manager where you'll have access to 1-1 calls, a training demo account and regular catch-ups. You will also have access to educational webinars, podcasts and blogs covering the latest industry trends. PrivacyEngine also has its very own Partner Portal full of useable promotional resources, key information, system videos, technical support and much more. We see ourselves as a part of your business and will help you be a successful PrivacyEngine Partner.

Pricing

Offer your clients a simple, affordable cwith no hidden costs.
